

Test Report – SPEAKER

General Information

Project: SPEAKER

Results by Scenario:

Validated Scenarios (No issues)

- Scenario 1: No issues
- Scenario 3: No issues
- Scenario 4: No issues
- Scenario 15: No issues
- Scenario 23: No issues

Scenarios with Anomalies

- Scenario 2: Information from a newly created account appears in the dashboard.
- Scenario 5: Despite account deletion, information remains accessible.
- Scenario 6:
 - The "New Voice" functionality on the dashboard does not work.
 - Unable to click on dashboard buttons.
- Scenario 7: Unable to click on dashboard buttons.
- Scenario 8: Dashboard buttons do not work.
- Scenario 9: Dashboard buttons do not work.
- Scenario 10: Dashboard buttons do not work.
- Scenario 11:
 - Absence of "Languages" and "Styles" filters.
 - The "Category", "Gender", and "Voice" filters function correctly.
- Scenario 12: No option to share voices.
- Scenario 13: A pop-up indicates that the feature is not yet implemented.
- Scenario 14: Absence of an area to leave a comment.
- Scenario 16: No emails are sent.
- Scenario 17: No emails are received.
- Scenario 18: Unable to add a member (scenario not testable).
- Scenario 19: Unable to add a member (scenario not testable).
- Scenario 20: Unable to generate a voice.
- Scenario 21: Unable to generate a voice.
- Scenario 22: The request is sent and I can join the team (functional).
- Scenario 24: Unable to click on another user's profile.
- Scenario 25:
 - No achievements visible on my profile.
 - Unable to display another user's profile.

General Observations

- The main functionalities of the dashboard (navigation, buttons, voice creation) encounter many blockages.
- Some features appear as not implemented (sharing, comments, filters, achievements).
- Account management presents inconsistencies (incomplete deletion, inability to add members).
- Email notifications do not seem to be functional.
